

## SUPPLEMENTS

# GROGREEN VEGETATIVE

Highly concentrated complete foliar nutrition for strong growth

**GROGREEN Vegetative** is engineered to provide a rapid and balanced nutritional boost to crops. Its perfectly balanced 1:1:1 NPK ratio, fortified with magnesium and essential micronutrients, makes it highly versatile. It's ideal for correcting unforeseen nutrient deficiencies, or as a general supplement to enhance overall plant vigour and development when soil uptake is limited.

Available in  
5kg pot ~ 1kg pot ~ 200g pot

## THE ADVANTAGES

### Ensuring steady growth

Our balanced NPK ratio provides a consistent supply of essential macronutrients for robust development without sudden growth spurts. Fortified with magnesium and micronutrients, this complete formula supports all critical plant functions, ensuring your crop grows strong and steady through every stage.

### Rapid & effective nutrient uptake

This formula ensures maximum nutrient availability for the immediate correction of deficiencies. The advanced gel structure acts as a foliar additive to improve adhesion to the leaf surface, reduce drift control, and improve water retention, while its low pH enhances the solubility and uptake of nutrients. This synergy guarantees a fast and effective response when your crop needs it most.

### Easy tank mixing

Designed for maximum flexibility, our formula is highly compatible with a wide range of agrochemicals. Its low pH helps to buffer the tank mix solution, improving the solubility and stability of other products while also preventing the clogging of nozzles and spray systems. This ensures a smooth, trouble-free application every time.

### High concentration - low input

Vegetative has a very high nutrient content. This allows for lower application rates compared to traditional liquid fertilizers, reducing handling, transport, and storage costs. Get superior results with less product, making it a truly cost-effective choice for your operation.

# GROGREEN

## Naturally different

Available in  
5kg pot ~ 1kg pot ~ 200g pot

### APPLICATION TIPS

Shake well before use. Apply during cooler parts of the day (early morning or late afternoon) to maximise absorption and minimise evaporation.

Always perform a compatibility test when mixing with other products. Do not mix with alkaline materials, combustibles, and reducing agents.

**GROGREEN** products and  
how we make a difference.

### Application guidelines

Designed for foliar application. General dosage varies between 2 - 5 kg per hectare, depending on the crop type, timing and deficiency symptoms.

Never exceed a concentration of 0,5% (5 g/l).

Density: +/- 1,63 kg/l

Specifications	W/W	W/V
Total nitrogen (N)	16,60%	27,00%
Nitric nitrogen (N-NO <sub>3</sub> )	3,60%	5,90%
Urea nitrogen (N-NH <sub>2</sub> )	13,00%	21,10%
Total Phosphorus pentoxide (P <sub>2</sub> O <sub>5</sub> )	16,60%	27,00%
Phosphorus pentoxide (P <sub>2</sub> O <sub>5</sub> ), soluble in water	16,60%	27,00%
Phosphorus pentoxide ((P <sub>2</sub> O <sub>5</sub> ) soluble in water and neutral ammonium citrate	16,60%	27,00%
Potassium Oxide (K <sub>2</sub> O), soluble in water	16,60%	27,00%
Magnesium Oxide (MgO), soluble in water	2,00%	3,30%
Boron (B), as boric acid, soluble in water	0,010%	0,016%
Copper (Cu), EDTA chelated, soluble in water	0,002%	0,003%
Iron (Fe), EDTA chelated, soluble in water	0,050%	0,082%
Manganese (Mn), EDTA chelated, soluble in water	0,025%	0,041%
Molybdenum (Mo), as sodium salt, soluble in water	0,002%	0,003%
Zinc (Zn), EDTA chelated, soluble in water	0,010%	0,016%
